

## GRANITE INSTALLATION CHECKLIST

WHETHER YOU'VE DECIDED TO CHOOSE GRANITE FOR YOUR KITCHEN, WET BAR, OR BATHROOM, YOU ARE PROBABLY WONDERING: "WHAT DO I DO NEXT?" THIS CHECKLIST SHOULD HELP, BUT IF YOU STILL NEED CLARIFICATION, JUST ASK US.

**1 ESTIMATE APPOINTMENT:**

Set up appointment to meet with Sebring Services and determine basic measurements for proposal.

**2 PROPOSAL:**

You should receive a written proposal within approximately one week after estimate appointment.

**3 QUESTIONS:**

After receipt of proposal, call the office and go over any questions.

**4 READY TO GET STARTED:**

Sign proposal and submit deposit payment.

**5 COLOR SELECTION:**

Brochure and color square samples (provided by Sebring Services). Your final color decision can also be made when you choose your actual slabs. (at Parksite Surfaces).

**6 EDGE SELECTION:**

Edge sample slab can be provided by Sebring Services. Your final edge decision can also be made after choosing your actual slabs (Parksite Surfaces).

**PLUMBING FIXTURE SELECTION:**

Make an appointment with the Aqua Sulis (Meyer Co.) showroom. Select & purchase your faucet & sink (or any other item). Sebring Services offers a nice and affordable 18 Gauge Stainless steel sink—make sure to ask about availability and pricing.

**7 APPLIANCE SELECTION:**

If you are purchasing new appliances, (especially stove tops and dishwashers), you must have these before we come back for final measurement (for actual fabrication) and installation.

**8 SLAB SELECTION:**

Make an appointment at Parksite Surfaces to choose your actual slabs. Most kitchens require 2 slabs. Ask about the number of slabs you will need when you submit your contract. Fabricator is: European Stone/Sebring Services.

**9 FINAL MEASUREMENTS:**

Once you have all the items that are required for final measurement/installation, call the office and let us know and we will then schedule an agreed time for the fabricator to do the final measurement. Within one week of final measurement, Sebring Services will call you to confirm a date for installation (approximately 2 weeks).

**10 GRANITE INSTALLATION**

Please clear off the existing counter and the working area/room. It is also a good idea to pull out top drawers of bottom cabinets. Installation usually takes approximately 3-5 hours for a typical size installation. In most cases, installation and removal of existing countertop is performed the same day.

**11 PLUMBING INSTALLATION:**

The plumber (if applicable) is normally scheduled for the day following the granite installation.

**12 COMPLETION:**

Enjoy your new countertops.! All granite tops are sealed by the fabricator during installation.

**OTHER ITEMS TO BE DETERMINED:**

Tile backsplash                      Under cabinet lighting

**ITEMS THAT NEED TO BE COMPLETE BEFORE FINAL MEASUREMENTS**

- Plumbing Fixture Selection (must be at jobsite)
- Appliance Selection (must be at jobsite)
- Slab Selection
- Cabinet Installation (If applicable)
